# R Cadherin Rabbit mAb

Catalog No: #57063

Package Size: #57063-1 50ul #57063-2 100ul

Orders: order@signalwayantibody.com Support: tech@signalwayantibody.com

# Description

| Product Name          | R Cadherin Rabbit mAb                                                                              |
|-----------------------|----------------------------------------------------------------------------------------------------|
| Host Species          | Rabbit                                                                                             |
| Clonality             | Monoclonal                                                                                         |
| Isotype               | Rabbit IgG                                                                                         |
| Purification          | Affinity-chromatography                                                                            |
| Applications          | WB                                                                                                 |
| Species Reactivity    | Human Mouse Rat                                                                                    |
| Specificity           | R Cadherin Antibody detects endogenous levels of total R Cadherin                                  |
| Immunogen Description | A synthesized peptide derived from human R Cadherin                                                |
| Other Names           | Cadherin 4; cdh4; R CAD; Retinal cadherin;                                                         |
| Accession No.         | Uniprot:P55283                                                                                     |
| Calculated MW         | 130kDa                                                                                             |
| Formulation           | Rabbit IgG in phosphate buffered saline , pH 7.4, 150mM NaCl, 0.02% sodium azide and 50% glycerol. |
| Storage               | Store at +4°C short term. Store at -20°C long term. Avoid freeze / thaw cycle.                     |

# **Application Details**

WB:1:500~1:2000

# **Images**

Western blot analysis of R Cadherin expression in HepG2 cell lysate.

### **Product Description**

Cadherins are calcium dependent cell adhesion proteins. They preferentially interact with themselves in a homophilic manner in connecting cells; cadherins may thus contribute to the sorting of heterogeneous cell types. May play an important role in retinal development.

| Note: This product is for in vitro research use only and is not intended for use in humans or animals. |  |  |  |
