

## TLR4 Antibody

Catalog No: #35577

Package Size: #35577-1 50ul #35577-2 100ul

Orders: order@signalwayantibody.com

Support: tech@signalwayantibody.com

## Description

Product Name	TLR4 Antibody
Host Species	Rabbit
Clonality	Polyclonal
Purification	Antigen affinity purification.
Applications	WB IHC
Species Reactivity	Hu
Specificity	The antibody detects endogenous levels of total TLR4 protein.
Immunogen Type	Recombinant Protein
Immunogen Description	Fusion protein corresponding to a region derived from internal residues of human toll-like receptor 4
Target Name	TLR4
Other Names	TOLL; CD284; TLR-4; ARMD10
Accession No.	Swiss-Prot#: O00206NCBI Gene ID: 7099Gene Accssion: BC117422
SDS-PAGE MW	96kd
Concentration	1.1mg/ml
Formulation	Rabbit IgG in pH7.3 PBS, 0.05% NaN <sub>3</sub> , 50% Glycerol.
Storage	Store at -20°C

## Application Details

Western blotting: 1:500-1:2000

Immunohistochemistry: 1:25-1:100

## Images

Gel: 6%SDS-PAGE  
 Lysate: 60ug K562 cell  
 Primary antibody: 1/550 dilution  
 Secondary antibody dilution: 1/8000  
 Exposure time: 1 minute

Immunohistochemical analysis of paraffin-embedded Human liver cancer tissue using #35577 at dilution 1/25.

## Background

The protein encoded by this gene is a member of the Toll-like receptor (TLR) family which plays a fundamental role in pathogen recognition and activation of innate immunity. TLRs are highly conserved from *Drosophila* to humans and share structural and functional similarities. They recognize pathogen-associated molecular patterns that are expressed on infectious agents, and mediate the production of cytokines necessary for the development of effective immunity. The various TLRs exhibit different patterns of expression. This receptor has been implicated in signal transduction events induced by lipopolysaccharide (LPS) found in most gram-negative bacteria. Mutations in this gene have been associated with differences in LPS responsiveness. Multiple transcript variants encoding different isoforms have been found for this gene.
