

MUC2 Antibody

Catalog No: #37169

Package Size: #37169-1 50ul #37169-2 100ul

Orders: order@signalwayantibody.com

Support: tech@signalwayantibody.com

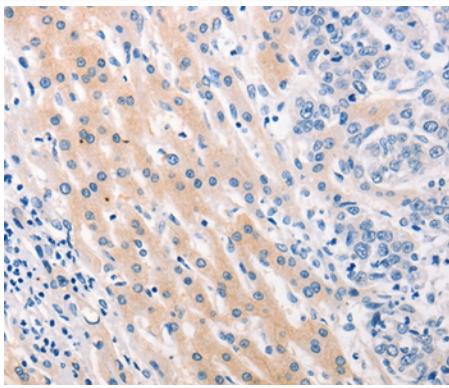

Description

Product Name	MUC2 Antibody
Host Species	Rabbit
Clonality	Polyclonal
Purification	Antigen affinity purification.
Applications	IHC
Species Reactivity	Hu
Specificity	The antibody detects endogenous levels of total MUC2 protein.
Immunogen Type	Peptide
Immunogen Description	Synthetic peptide corresponding to a region derived from internal residues of human mucin 2, oligomeric mucus/gel-forming
Target Name	MUC2
Other Names	MLP; SMUC; MUC-2
Accession No.	Swiss-Prot#: Q02817NCBI Gene ID: 4583Gene Accsion: NP_002448
Concentration	2mg/ml
Formulation	Rabbit IgG in pH7.3 PBS, 0.05% NaN3, 50% Glycerol.
Storage	Store at -20°C

Application Details

Immunohistochemistry: 1:50-1:200

Images

Immunohistochemical analysis of paraffin-embedded Human liver cancer tissue using #37169 at dilution 1/60.

Background

This gene encodes a member of the mucin protein family. Mucins are high molecular weight glycoproteins produced by many epithelial tissues. The protein encoded by this gene is secreted and forms an insoluble mucous barrier that protects the gut lumen. The protein polymerizes into a gel of which 80% is composed of oligosaccharide side chains by weight. The protein features a central domain containing tandem repeats rich in threonine

and proline that varies between 50 and 115 copies in different individuals. Alternatively spliced transcript variants of this gene have been described, but their full-length nature is not known.

Note: This product is for in vitro research use only and is not intended for use in humans or animals.
