Goat anti-Rabbit IgG Secondary Antibody HRP conjugated

Catalog No: #L3012

Package Size: #L3012-1 100ul #L3012-2 1ml

Orders: order@signalwayantibody.com
Support: tech@signalwayantibody.com

Description

Product Name	Goat anti-Rabbit IgG Secondary Antibody HRP conjugated
Clonality	Polyclonal
Purification	The antibody was obtained by affinity purified technique, which removes essentially all goat serum proteins, except the specific antibody for rabbit IgG. Goat anti-rabbit IgG was conjugated to peroxidase by means of a method described by Wilson MB and Nakane PK.
Applications	ELISA WB IHC
Species Reactivity	Rabbit
Specificity	The antibody conjugate is specific for rabbit IgG. No cross-reactivity was observed with rabbit IgA, IgM proteins by ELISA.
Immunogen Type	Protein
Immunogen Description	The antiserum was developed in goat using the rabbit IgG as the immunogen.
Conjugates	HRP
Target Name	Rabbit IgG
Formulation	HRP-labeled Goat IgG in phosphate buffered saline (without Mg2+ and Ca2+), pH 7.4, 150mM NaCl, 50% glycerol.
Storage	Store at -20 °C/1 year

Application Details

ELISA : 1:5000~1:20000

Western blotting: 1:5000~1:10000

Immunohistochemistry: 1:1000~5000

Background

Wilson MB and Nakane PK. In Immunofluorescence and Related Staining Techniques, Elsevier/North Holland Biomedical Press, Amsterdam, P215 (1978).
